

# Getting to and from school

The way your child gets to school has a direct impact on the health and safety of all students at Remuera Intermediate School. Students at Remuera Intermediate get to school safely through sustainable means of transportation (walking, cycling, scootering, train, bus and carpooling).

Remuera Intermediate is dedicated to minimising the number of car trips to and from school, which in turn will help reduce the congestion around the school and increase student safety and health.

If you do need to drive your child to or from school we expect you to utilise the Park and Walk locations provided below. Never drop your child at the school gate or come into the school car park. Doing either is simply too dangerous with the amount of students coming and going each day.

Thank you for helping to keep Remuera Intermediate a safe and happy place.
